Specials Grading Policy

Students in grades 1 - 5 will receive a grade of E, S, N or U. This grade is based on active participation, teacher observation and/or assessment of their work and mastery of the AKS being taught.

Students in Kindergarten will receive a grade of S, N or U. This grade is based on active participation, teacher observation and/or assessment of their work and mastery of the AKS being taught.

Specials at Corley: A K-5 Adventure

Students at Corley will rotate through each of the following specials every nine weeks.

Art:: Marcie Bandy

In Art, students will be introduced to global art through their art projects, literature, music and movement. Students will learn art elements and principles of design using a variety of medium including drawing materials, paint, clay, and fibers.

Music: Lisa Cox and Beth Bryant

Through movement, songs and a musically rich environment, students learn about all the ways music can enhance their lives. Visit our music website below:

<http://schoolnotes.com/30044/corleychorus.html>

Math: Lynn DiCarlo

The Math Special is an enrichment program which uses manipulatives and games. Students will explore and practice the math AKS appropriate for their grade level.

P.E.: Jeremy Edwards and Stella Olatunde

The aim of the physical education program at Corley Elementary School is to develop and improve the student's personal fitness and motor skills by providing developmentally appropriate activities through purposeful, creative and enjoyable instruction. By incorporating challenging yet achievable tasks, the students can attain positive attitudes about physical activity and movement.

The Gym is also the headquarters for Box Tops for Education.

Literacy: Mellanie Gaymon

The Literacy Special is an enrichment program for Kindergarten and First Grade. Students will focus on various AKS skills as they work through centers. These centers will allow the students to use many of the learning modalities (kinesthetic, auditory, visual, and tactile) which are proven to help student achievement.

Science: Lucas Findlay

Science is taught in the regular classrooms, but students are able to engage the science AKS with exciting hands on learning in the lab. The Science Lab is also the head-quarters for Corley's recycling program, Clean Air Campaign, and animals. The recycling center teaches students to reuse, reduce, and to recycle. Members of the 4th grade Science Club, "The Planetees", help care for the animals and maintain the recycling program.

Technology: Denise Cox

Students go to technology specials once each grading period. They will go to the productivity lab. to complete activities and projects that will teach them important technology skills and reinforce/enrich the AKS they are working on in their classrooms. Some of the skills learned are: research, internet, typing and software programs.
